

NIBATEK CHEMICALS PVT. LTD.

Greetings from NIBATEK CHEMICALS PVT. LTD. !!

*We are an **ISO 9001: 2015** certified firm engaged in Trading & Transport of Bulk & Specialty Chemical Materials & **Hazardous Waste** Material.*

We believe in one constant i.e. change through evolution. We have evolved our Business Model from Trading to Services. NIBA enjoys prominent market presence in each of the key Industry Verticals and has several successful Business Associations. It is our belief that commitment & Principles are foundation of a successful business and we have always adhered to the same. This we believe has been the key to our growth and success.

We operate from a foundation of compliance that promotes pollution prevention, waste minimization, and responsible care. We encourage sustainability as an integrated business approach that creates long-term value. With focus to Innovate and support in creating Wealth from Waste our Current Activities and Area of Interest:

Bulk Chemical Carriers:

NIBA Chemical Transportation's expertise with chemical shipments extends to both liquid bulk and dry bulk carriers. Bulk carriers are often difficult to find on short notice. Not so with NIBA!

NIBATEK Chemical Transportation has a wide network of carriers ready to serve you. Plus, NIBA's team of transportation specialists have the years of experience to ensure your product is shipped on time and safely, at a reasonable cost. So, whether you're transporting liquid bulk or dry bulk commodities NIBA has solutions for all your transportation needs.

Hazardous Material Carriers:

All of our Hazardous material carriers are required to meet certain safety criteria. We make sure to fully review their licensing, insurance, safety and on-time performance before sending them out on a job. We want you to feel absolutely certain that your cargo is in the right hands, and we strive to take every step necessary to ensure our carriers are fully prepared for the task at hand. Hazardous material and chemical transportation is a job best left to trusted experts, and that's what you'll get with at NIBATEK. Every carrier dispatched on one of your shipments goes through the same review process, and all of them are strictly monitored to ensure they meet our standards of safety.

NIBATEK CHEMICALS PVT. LTD.

Hazardous Material Transportation:

is an extremely difficult process, and finding qualified individuals you can trust to do it can be even harder. At NIBATEK, all of our employees are TDG (Transportation of Dangerous Goods) trained, and have all of the knowledge and experience necessary to handle your freight. We specialize in Hazardous Material transportation, and take pride in performing safe, on time deliveries for all of our customers. To ensure that you're kept constantly up-to-date on where your shipment is, we employ tracking and tracing systems for all of our transportation deliveries. Because of the additional risks associated with Hazardous Material transportation, knowing where your freight is at all times can help put your mind at ease.

*Our Pollution Control Board certified carriers are one of the reasons NIBA aspires to be a leader in bulk **Chemical & Hazardous waste** transportation in near future.*

INDUSTRIES SERVED:

- ✓ STEEL
